documentation with: <ol style="list-style-type: none"> 1. SSOLV 2. SAVE 3. DEERS (DOD) 4. Other jurisdiction (DL/ID card) 5. Birth certificate 6. Other...i.e. third party vendors 	Developed and in place 26K programming development (for online access) 26K programming development 26K programming development 26K programming development plus 180K per year cost for the verification	additional personnel (a document verification/correspondence/issue unit) with a set-up cost of \$30K for furniture and hardware, 35K for programming, \$219K ongoing cost per year for personnel and \$2500 per month for office space and equipment lease. Additionally, postage for ongoing mail verification will be \$150K per year.
Developing access capability to SAVE system	Costs stated above	
Introduce equipment into system to capture digital images of identity source documents so that images can be retained in electronic storage in a transferable format	800K initial cost, plus ongoing maintenance and equipment replacement.	Images captured at front end.
Retain paper copies of source documents for a minimum of 7 years or images of source documents presented for a minimum of 10 years	No impact identified	
Subject each person applying for a driver's license or identification card to mandatory facial image capture	There will be development cost. The amount is unknown at this time.	
Establish an effective procedure to confirm or verify a renewing applicant's information	No impact identified	No additional technology required.
In the event that a social security account number is already registered to or associated with another person to which any state has issued a DL/ID card, the state shall resolve the discrepancy and take appropriate action	No impact identified	Similar to what is currently done
Check other states if a person already was issued a DL in another state	26K Programming development More if electronic verification is not possible	If electronic verification is available
Ensure physical security of locations where DL/ID cards are produced	No impact identified	If central issue can be negotiated

REAL ID ACT REQUIREMENT	IMPACT	ASSUMPTIONS
Subject all person's authorized to manufacture or produce DL/ID cards to appropriate security clearance requirements	No impact identified	If central issue can be negotiated
Establish fraudulent document recognition training programs for appropriate employees engaged in the issuance of DL/ID cards	No impact identified	If central issue can be negotiated
Limit period of validity of DL/ID cards that are not temporary to a period not exceeding 8 years	No impact	Compliant
Alternative document design if it does not meet federal standard	30K	Vendor charge may vary
Legal Presence Requirement	Legislation to clarify	
Provide electronic access to all other states to information contained in the motor vehicle database of the state	No impact identified	
Maintain a state motor vehicle database that contains at a minimum: <ul style="list-style-type: none"> ▪ All data fields printed on DL/ID cards ▪ motor vehicle driver's histories, including motor vehicle violations, suspensions and points on licenses 	No impact identified	
Optional Development and issuance of a certificate of driving – not for federal identification purposes – for those who cannot prove lawful presence.	60K programming development cost	

What questions does your jurisdiction have as a result of the passing of the Real ID Act?

- **Is “central issue” for driver’s licenses going to be required?**

- **Will verification systems be in place for automated verification?**
- **Will all drivers have to re-verify documentation or only those drivers newly licensing?**

If your jurisdiction has done an impact analysis please provide us with a copy of the analysis.
